

# Power Generator

# ABOUT US

EAPower has been operating for decades supplying Marine Diesel and Gas Engine Generator, Zone 2 Diesel Engine Generator, Zone 2 Diesel Engine Air Compressor and Zone 2 Engine Power Pack to the international oil and gas, marine, energy, oilfield servicing & well intervention and mining industries. Backed by the track records with the major EPC companies, you will be certain that your project is in safe hands with us. Our aim is to supply the best equipment and engineering solutions that are customized for the job at hand. Our experience in this field means we're equipped to meet the demands of any job, no matter how large it may be.

## **Specializes in ATEXZone 2 Compliance Generators and Compressors**

Offering a range of specific generators, we are able to accommodate the unique requirements of the offshore operator.

## **Engineering Excellence for the Offshore, Oil & Gas Industries**

EAPower has been operating for more than decades supplying Marine Diesel & Gas Generator, Zone 2 Generator, Zone 2 Air Compressor

## ZONE 2 HAZARDOUS AREA

Diesel engine driven packages are designed specifically for operation within a Zone 2 Hazardous area, providing safe shutdown and removal of all ignition sources, in the event of a platform confirmed combustible gas release.

### Features :

- ✓ Engine flame protection package
- ✓ Air intake shut off valve
- ✓ Exhaust outlet spark arrestor
- ✓ Exhaust flame arrestor
- ✓ Ex n alternator
- ✓ Ex d control panel
- ✓ Ex e hard wire or socket terminal outlets

# MARINE GENERATOR PACKAGES

Electrical power on board is serious business and you cannot afford down time. East Asia Power's marine generators are engineered to perform in the most rugged and demanding conditions.

## IMO Annex VI of MARPOL 73/78

An EIAPP certificate is the internationally-accepted documentation that a specific engine meets the international NOX emission limits for diesel engines set out in Regulation 13 of Annex VI. As a Class requirement, all of our diesel engines are EIAPP certified.

# COMPLIANCE TO YOUR SPECIFICATIONS

With our involvement in your projects from early stages on, we meticulously select and review every component of each package to ensure compatibility and proper reliable operation of the system as an engineered unit.

## On Site Support

Our experienced engineers and our highly skilled technicians travel worldwide to remote stations for commissioning and installations. We offer our services with a consultative approach, installations, technical solutions and assistance, including field and technical support.
